

Title

Neckartal Green Scheme Irrigation Farm

Project summary

The Neckartal Irrigation Scheme project involves the development of the Neckartal irrigation project and the construction of the Neckartal Farm with a total approximate area of 5,000 hectares that could be used to produce dates and grapes for export. The project is expected to include the setting up of relevant infrastructure for drawing the water from the recently built Neckartal dam, such as pumping stations, irrigation channels, and pipelines, in addition to the allied agriculture infrastructure such, as farm equipment, crop processing units, shed, godowns, silos for storage, and fencing.

The private developer would have the flexibility to produce any crops, based on the market demand assessment. The private developer would also have the flexibility to sell the crops produced domestically or abroad, based on the market demand assessment.

Project location

//Karas region - Keetmanshoop

Project investment value

Infrastructure cost: USD 200 million

Project status

The project is currently in the initial planning phase. Procurement of private developer to commence May 2022
